SUMMARY

iOS engineer with 8 years shipping native apps, from large Objective-C and UIKit insurance apps to a SwiftUI social network I founded and run end to end. Specialised in **Swift, SwiftUI, Swift Concurrency** and **migrating legacy Objective-C codebases to modern Swift**. Comfortable owning the whole product: architecture, UI/UX, Android (**Kotlin, Jetpack Compose**), Node.js backend and release automation.

EXPERIENCE

iOS Developer · Capgemini — 2025 – Present

Clients: Caser Seguros, Helvetia & Airbus · Caser, Caser Salud, Helvetia Salud, myHelvetia (App Store) · Airbus Finland (enterprise)

- iOS consultant on **five production apps** across Spain, Switzerland and Finland: four insurance apps for Caser and Helvetia, and an enterprise app for **Airbus**.
- Leading the migration of legacy **Objective-C** modules to **Swift** in large-scale, production insurance apps.
- Building new features across **UIKit, Storyboards and SwiftUI**, adopting **async/await** in existing code.
- Shipping releases through **App Store Connect** within an enterprise team and review process.

Founder & Lead Engineer · New People — 2024 – Present

Campus social app · launched May 2025 at IE University, Madrid · expanding to New York · App Store

- Designed and built the **100% SwiftUI** iOS app: matching, chat, events and a weekly blind-date feature ("Thursday Introduction").
- Created a **dynamic university theming system** that derives full HSL gradients from one brand colour per university.
- Built the native **Android** version with **Kotlin and Jetpack Compose**.
- Own the **Node.js / MongoDB** REST backend on DigitalOcean (PM2), deployed via **GitHub Actions** from an iOS + backend monorepo.
- Automated iOS releases with **Xcode Cloud**: tag-triggered builds straight to **TestFlight**; also built an internal SwiftUI admin app.

iOS Developer · React — 2024

- Built features for a **cybersecurity iOS app** in Swift and SwiftUI, improving performance, reliability and user experience.

iOS Developer & UI/UX Designer · Freelance — 2018 – 2025

- Designed and developed native iOS apps for clients, from UI/UX in design tools to App Store release, with a growing focus on SwiftUI.
- **Hotel Molino de Felipe** (2019 – 2020): designed and built the hotel's iOS app and website.
